

PROGRAM

Symposium on 'Local Antibiotics in Arthroplasty'

Friday, 7 April 2006

Antibiotic Loaded Cement and Its Properties

Moderators: Geert Walenkamp / Henk Busscher

Time:	Subject:	Speaker:
11.30 - 12.30	Speakers lunch (MecCafé)	
12.00 - 13.30	Registration (Coffee and Tea)	
13.30 - 13.40	Welcome and Introduction	Geert Walenkamp (Maastricht)
13.40 - 14.05	Why cement the total hip	Steffen Breusch (Edinburgh)
14.05 - 14.30	The Norwegian Hip Register - The influence of cement and antibiotics on clinical results of primary prostheses	Lars Engesaeter (Bergen)
14.30 - 14.55	Infection of implants - adhesion of bacteria and the role of local antibiotics in prevention and therapy	Henk Busscher (Groningen)
14.55 - 15.20	Physical properties of bone cements and clinical relevance	Pieter Spierings (Nijmegen)
15.20 - 15.45	Antibiotic loaded bone cements: antibiotic release and influence on mechanical properties	Klaus- Dieter Kühn (Hanau)
15.45 - 16.15	Break (Coffee and Tea)	
16.15 - 16.40	Local antibiotics in surgery - Pharmacokinetics, indications and Techniques	Geert Walenkamp (Maastricht)
16.40 - 17.05	Antibiotics choices in bone surgery - What antibiotics in bone cements	Lars Frommelt (Hamburg)
17.05 - 17.30	Antibiotics in bone graft: pharmacokinetics and results. Revision of infected prostheses in Scandinavia	Eivind Witsø (Trondheim)
19.30	Congress evening (Incl. Symposium Dinner)	

Saturday, 8 April 2006

Revision of Infected Arthroplasty

Moderators: Geert Walenkamp / Enzo Meani

Time:	Subject:	Speaker:
08.00 - 09.00	Registration	
09.00 - 09.25	One stage revision arthroplasty: possibilities and limitations	Götz von Förster (Hamburg)
09.25 - 09.50	Two stages revision with local antibiotics: Dutch experience	Geert Walenkamp (Maastricht)
09.50 - 10.15	UK experience: revision strategy and problem germs	Paul Gaston (Edinburgh)
10.15 - 10.40	Italian experience: Revision of infected prosthesis with antibiotic-loaded preformed cement spacers	Carlo Romano/ Enzo Meani (Milano)
10.40 - 11.10	Break (Coffee and Tea)	
11.10 - 11.35	Greece: Revision of infected prostheses	Konstantinos Malizos (Larissa)
11.35 - 12.00	Belgium: Revision of infected prosthesis without local antibiotics	Michiel Mulier/ Jos Stuyck (Leuven)
12.00 - 12.25	Germany experience: Different revision strategies in the infected knee and hip	Carsten Perka (Berlin)
12.25 - 12.50	vancomycin bone cement experimental data	Sébastien Parratte/Prof. Argenson (Marseille)
12.50 - 13.15	New antibiotic carriers and coatings in surgery	Axel Stemberger (München)
13.15 - 13.30	Closing	
13.30 - 14.00	Lunch
